THE LOST DIMENSION ...

"Jim Power The Lost Dimension in 3-D" utilizes the revolutionary NUOPTIX 3D to combine incredible game action with three-dimensional graphics creating an astoundingly realistic game. The three-dimensional effect is enhanced by the glasses but glasses are not necessary for the virtual effect and is functional on any type of television or video monitor. Note: The stages "Guardian's Castle" and "Time Tower" do not utilize the NUOPTIX 3D but incorporate the similarly impressive Mode 7 graphics.
